2020 Annual Meeting Planning Committee (AMPC) Disclosures

The AMPC provides oversight and guidance on all educational activities related to the ACR Annual Meeting. Because it is not always clear what content or topic will be discussed, committee members are asked to disclose all financial relationships. Recusal is the primary mechanism for resolution. However, by the nature of committee work, the peer process also plays a role in ensuring balance.

The following types of relationships may be deemed relevant include:

1. Shareholder
2. Grant/Research Support
3. Employee
4. Ownership Interest (stocks, stock options, or other ownership interest excluding diversified mutual funds)
5. Consulting Fees (e.g., advisory boards)
6. Officer or Board Member
7. Royalties
8. Speaker/Honoraria (includes speakers bureau, symposia, and expert witness)
9. Other Financial or Material Support
