Kaleb Michaud, Frederick Wolfe, and Claire E. H. Barber

ARP Announcements

Cover image: The image on the cover (from Menz et al, p. 1343) shows lateral view radiographs of plantar calcaneal enthesophytes with assigned scores of 0 for absent (top left), 1 for small (top right), 2 for moderate (bottom left), and 3 for severe (bottom right). Enthesophytes were considered to be definitely present if a score of ≥2 was documented.
