

2020-2021 ACR Board of Directors Disclosures

In order for the College to most effectively further its mission and to otherwise maintain its excellent reputation in the medical community and with the public, it is important that confidence in the College's integrity be maintained. The cornerstone of the ACR's Disclosure Policy is disclosure of actual and potential conflicts so that they can be evaluated by the College in order to avoid undue influence of potential conflicts. The purpose of the ACR's Disclosure Policy is identification of relationships which may pose actual or potential conflicts. These actual or potential conflicts can then be evaluated by the College so that adjustments can be made which will avoid any undue influence. This policy is based on the principle that, in many cases, full disclosure of the actual or potentially conflicting relationship will of itself suffice to protect the integrity of the College and its interests.

Name	Employment	Stocks, stock options, or bond holdings in a for-profit corporation or self-directed pension plan	Research grants	Ownership / partnership	Consulting fees or other remuneration (payment)	Activities with other organizations	Receipt of royalties	Speakers Bureau	Immediate Family	Other
